Education and British Overseas School

How did you hear of the British Overseas School?

If through family or friends already attending the School, please be specific (about their names and classes)

Pre Interview Form

Education and British Overseas School

In what ways do you believe the philosophy of the British Overseas School matches your own philosophy of education?

What role do you believe you, as parents, have in your child's education?

Pre Interview Form

Education and British Overseas School

If you felt that any aspect of the BOS was not meeting your expectations, how would you address the situation?

The School Community

How would you be willing to contribute to the school community?

To which of the following Parental Involvement Programmes (PIPs) would you be willing to commit?

Please indicate your top three preferences.

	Internship Programme	Students in Key Stages 4 and 5 are expected to undertake work experience. This serves to help clarify career choices; it is necessary for higher education applications and, of course, the experience of the workplace is valuable in itself. We need parents who are willing to work with the Secondary School staff to facilitate this, either in their own workplace or through relationships they might have with various organizations.
	Enrichment Activities Programme	BOS offers a wide range of enrichment activities, ranging from sports through to crafts. Most are offered by our own teaching staff. However, in recent years a number of parents have come forward to offer an enrichment activity that reflects their own area of interest. These have included basketball, philosophy and singing. In addition, the School is interested in organizing more curriculum-centred outings for the students.
	Community Service Programme	Fostering a sense of responsibility for the wider community is an important facet of education at the BOS. Primary and Secondary students benefit from opportunities to undertake charitable work with reputable organizations. We need parents who are prepared to work with Primary and Secondary teachers to facilitate this.
	Professional Service Programme	Like any organization, a school calls upon a range of professional services. They include: accountants, builders, IT specialists and lawyers. We are aware that many of our parents work in these areas and, if asked, would be willing to contribute their services and time to help the School function more effectively.
	BOS Parent-Teacher Association	The PTA organizes a number of social events for the school community during the year. Many of you will already have attended some of those events such as the PTA Mela and the Meet & Greet. To maintain the high standards set for these events and to ensure that everyone, especially the children, takes the most from them, the PTA needs volunteers.

Pre Interview Form

The School Community

Do you have any experience working within an educational institution or school community

Could you kindly inform us if you have applied to any other institutions, and if so, whether your child has been admitted to any of them? (Rank in order of preference)
